## **MICOR Industries to be Spotlighted in Manufacturing Marvels on The Fox Business Network**

Decatur, AL. – MICOR Industries will be spotlighted in the nationally televised production, “Manufacturing Marvels” on The Fox Business Network between 9:20pm - 9:40pm CST on April 19th, 2022. This feature showcases MICOR’s - Magnus Hi-Tech campus in Melbourne, FL, and highlights its broad range of capabilities in precision machining and manufacturing for aerospace and defense industries.

Announcing the feature, MICOR CEO Julius Uihmann remarked, “MICOR takes pride in its use of advanced technology while keeping a people-first approach. We are thrilled to have our excellence in manufacturing and core values of “Transparent, Trusted, Tenacious” recognized on a national platform.”

Manufacturing Marvels is produced for the Fox Business Network to spotlight North American manufacturers, their products, as well as the companies’ processes and customers, and one company per industry is selected to be highlighted each year.

Upon request, a link to the video will be available, as well as interview opportunities with MICOR CEO, Julius Uihmann.

In addition to its recent acquisition of the featured Melbourne, FL facility, MICOR leadership is also looking ahead to an expansion at its Decatur, Alabama headquarters in 2022. This venture will result in an additional 10,000 sq. ft. of manufacturing space and a \$3.2 million investment in state-of-the-art equipment and new positions. The newly created jobs will range from entry-level machinists to executive-level engineers, exceeding industry standards in benefits and professional development.
